SUMMARY

Versatile professional with expertise in UI/UX design utilizing Figma , along with proficiency in Front-End Development encompassing HTML, CSS, and JavaScript. Strong background in Back-End Development. Skilled in Blender 4.0 for 3D animation and VFX. Adept at elevating digital experiences with precision and innovation.

INTERNSHIP/EXPERIENCE

Over the last 7 months, I have actively engaged in freelancing as a UI/UX Designer, successfully completing two significant projects. Collaborating closely with clients, I've crafted visually appealing and user-centric interfaces, demonstrating a commitment to high-quality design. These experiences have not only refined my design skills but also reinforced my ability to meet project deadlines and exceed client expectations. I take pride in delivering design work that consistently meets and surpasses client satisfaction.

| • Brilliant Convent Higher Secondary School, Bhopal, MP | July 2018 |
| 10th Grade | Percentage: 79.2% |

TECHNICAL SKILLS

- **Language/Database:** HTML, CSS, JavaScript, MongoDB
- **Front-End Technologies:** Tailwind CSS, Bootstrap, GSAP, Locomotive
- **Softwares & Tools:** Git , GitHub, VS Code
- **Back-end Technologies:** Nodejs, Expressjs
- **Designing Tools:** Figma, Blender 4.0

PROJECTS

FRONT- END PROJECTS

- **Modern Muses:** Crafted immersive front-end website 'Modern Muses' with dynamic GSAP and Locomotive Scroll animations for engaging user experiences. [\(https://vanshampatel.github.io/modern-muses/\)](https://vanshampatel.github.io/modern-muses/)
- **Mirandaa:** Designed with a vintage aesthetic, 'Mirandaa' draws inspiration from magazine layouts, offering a unique visual experience. [\(https://vanshampatel.github.io/mirandaa/\)](https://vanshampatel.github.io/mirandaa/)
- **Two Good:** Lead the development of 'Women Empowerment Hub,' a responsive website for a women's organization, with impactful animations, optimized for 442x600 resolution. [\(https://vanshampatel.github.io/change-course/\)](https://vanshampatel.github.io/change-course/)
- **Rejouice:** The website is based on future technology, and I have used numerous animations in it. [\(https://vanshampatel.github.io/home-rejouice/\)](https://vanshampatel.github.io/home-rejouice/)
- **Portfolio:** Designed and implemented a personal portfolio using HTML, CSS, and JS, highlighting my UI/UX skills. View it at . [\(https://vanshampatel.github.io/Portfolio/\)](https://vanshampatel.github.io/Portfolio/)

FIGMA DESIGNS

- **Music Player Design:** Figma
In this design, there are both website and mobile app designs. <https://www.figma.com/file/Wo0FmvpbybgdXh2wTU8Lj9n/music-player?type=design&node-id=0%3A1&mode=design&t=WH2RFODlkaFqCAgw-1>
- **IRCTC App Design:** Figma
I redesigned both the web and app interfaces of the IRCTC platform, prioritizing usability and functionality. <https://www.figma.com/file/SYn15XB90wvhAIPvLWdJQ0/IRCTC-Redesign?type=design&node-id=15%3A6782&mode=design&t=fod66wzh9pXShrRW-1>
